A couple years ago we collaborated with a west coast design firm, Whitfield Associates, to create a custom color palette for the Mercedes-Benz of North America dealership showroom program. Each customer functional area, new car sales, lounge and service, was color coded in Spatula Stuhhi to comply with overall dealership upgrades as mandated by Mercedes-Benz corporate. To date we have completed about 6 dealerships in the U.S. with Spatula Stuhhi.

Mercedes of Tampa is located on Dale Mabry Drive, near the Tampa Bay Bucs/Raymond James Stadium & across from Legends Field, winter home of the New York Yankees.
