

Notable Project Profile

Job Name:	Neiman Marcus
Location:	Coral Gables, FL
Product/Texture:	Duroplex EXTERIOR Ancient Stone Pattern
Installer:	Southern Plains Painting Inc

In keeping with the traditional Mediterranean style architecture of South Florida, client Neiman Marcus wanted an elegant, maintenance free, exterior finish for their new store to be located in fashionable Coral Gables, FL. Careful thought was given to exterior product selection, as the indigenous climate is prone to hurricanes, extended high temperatures, and high UV exposure, yet at the same time the exterior of the building needed to project an image compatible with this upscale retailer. Primary construction is reinforced concrete masonry units (CMU); a requirement was to completely mask the appearance of the block substrate. The store was built in 1996; these pictures were taken in 2006, some 10 years after installation.
