A/D firm:	Ranon & Partners Inc (Tampa) http:// www.ranon.com/
Installer:	O'Guin Decorative Arts Naples, FL.

Palmetto High School: With the completion of another winning season of football, Palmetto High School wanted to provide recognition for the fighting Tigers. Located on the west coast of Florida in Manatee County, the school district engaged Ranon & Partners in nearby Tampa to design & execute a multi million dollar expansion to the sprawling high campus. Part of that expansion included adding to the field house/athletic facility to express local civic pride. Ranon & Partners selected Triarch's Granyte and Duroplex EXT directly applied to exterior masonry to provide visual impact for the campus.

Granyte in Lava Stone over precast concrete helps to create a larger than life mascot

Duroplex EXT in Cerrano Spray Pattern flanks field house entrance.
